Belgotex®

WHO ARE WE?

At Belgotex we believe that everything we do should creatively challenge the flooring / interiors status quo. Belgotex has 30 years proven experience in the New Zealand flooring market. We stand by our products, and pride ourselves on the innovation and quality that we bring to the market every day.

Why choose Belgotex Luxury Vinyl Tiles?

These ranges have been designed to fit current and future trends in the New Zealand market. As well as choosing a beautiful floor, our Luxury Vinyl Tiles will also provide many more benefits for your space. All of our products have a Superguard® protective layer, which means that your floor will resist stains, scratches, and scuffs better than other floors, so you can spend more time enjoying your floor, and less time cleaning it. Your floor will be the envy of anyone that sees it!

Primero II Major Oak 24847

PRIMERO II

Suitable For Underfloor Heating | Antistatic | Slip Resistant | Castor Chair Compatible (only when glued down) | **Super**Guard Stain Shield | Indoor Air Quality

Construction	Luxury Vinyl Tile
Plank Size	163mm x 988mm
Tiles per Carton	24pcs / 3.87m²
Wear Layer Thickness	0.30mm
Total Thickness	2.25mm
Bevel	4-sided micro-bevel
Surface Protection	Superguard®
Slip Resistance	DS - R10 (EN 13893 / DIN 51130)
Fire Test	ISO 9239-1
Classification	Class 23 Domestic Heavy / Class 31 Commercial Light
Warranties	20 Year Residential Warranty / 10 Year Commercial Warranty
Installation	Please contact Gilt Edge Industries for all adhesive and installation instructions. NB: If recommended adhesive is not used, claims will not be accepted. Must be laid in accordance with AS/NZ Installation Standards.

- For samples, range and warranty details please contact us on 0800 377 753 or www.belgotex.co.nz
- Specifications are based on averages from manufacturing processes and may vary within normal industry tolerances.
- This product is intended for use solely as an indoor floor covering and is not recommended or sold for any other purpose.
- Use entryway systems outside each entrance to prevent dirt, sand, grit and other substances from being tracked onto floor.
- **Rubber Migration:** Rubber migration (also known as Plasticiser Migration) is a condition that can cause vinyl to discolour. It is caused by rubber or latex products, eg rubber or latex-soled slippers, shoes and rubber backed mats, coming into contact with the vinyl over a constant period of time. It is neither a manufacturing nor an installation fault and therefore is not covered by our warranties.

Installation

Dryback is the more traditional type of plank and method of installation. We recommend having your floor installed by a registered and approved New Zealand Installation contractor or dealer. The planks are glued with a special adhesive to a thoroughly prepared surface or subfloor that is hard, dry, and flawless. For full installation instructions visit our website or contact us.

Care and Maintenance

Good cleaning and maintenance helps to preserve the appearance and extend the life of your floor. Cleaning frequency depends on how intensely the floor is used, how much foot traffic it gets, how dirty it is, what colour, and what type it is. Everyday cleaning can be done with a broom or vacuum cleaner, and then either using a damp microfibre mop or regular mop with a non-aggressive neutral pH cleaner. Belgotex Luxury Vinyl Tiles are given extra protection with the Superguard® layer on top of the resistant wear layer. This layer protects against dirt, stains, scratches, and scuffs, and will make cleaning your floor easier. For full cleaning and maintenance instructions visit our website or contact us.

Tips

- Always wipe up spillages with a damp cloth before they penetrate into the floor and cause permanent discolouration.
- Follow the detergent manufacturer's instructions with regards to mixing and quantities.
- Use felt pads under hard furniture that is used over the flooring to avoid any scratches or dents in the flooring.

FREQUENTLY ASKED QUESTIONS

What is LVT?

Vinyl plank flooring is made of layers of materials pressed together to create hard wearing flooring.

These layers include the protective coating, the wear layer, the design layer, the print layer, glass fibre layers, and the backing. Belgotex LVT includes wood planks in 3 different qualities to suit many different environments.

Our LVT products come either in a dryback or acoustic construction; see the pages on each LVT to show the construction of each product.

Can I use a steam mop?

We don't recommended that you use a steam mop on any vinyl flooring. The high heat produced will strip the protective wear layer, and cause the product to attract dirt and have a faded appearance.

Does Belgotex LVT require a lot of maintenance?

No it doesn't. It is low maintenance, and very easy to clean. The Superguard® surface layer means that your floor will resist stains, scratches, and scuffs better than other floors, so you can spend more time enjoying your floor, and less time cleaning it.

Can I use underfloor heating with Belgotex LVT?

Our products can be installed over underfloor heating, provided it is done professionally. It is also suitable for underfloor cooling if required. See our installation instructions for more information.

Will LVT be durable?

LVT is the perfect flooring solution for busy family households or commercial environments alike. Our wood look LVT is durable and copes beautifully with the demands of everyday life. Its enhanced surface treatment Superguard® surface treatment offers outstanding slip, scuff, and soiling resistance. It will last the test of time in your space.

Are Belgotex LVT floors suitable for bathrooms and kitchens?

Yes absolutely. They are hard wearing and moisture resistant, which makes them well suited to most spaces (excluding wet spaces like showers and saunas).

For heavier wearing commercial kitchens, higher slip resistance products may be more suitable – see technical specifications or contact us for more information.

Can I install Belgotex LVT myself?

Belgotex LVT is very easy to install. However, we advise that you have your floor installed by a registered and approved New Zealand installation contractor or dealer. This should guarantee your happiness with your floor, together with the benefits of the full warranty.

Where can I purchase Belgotex LVT?

You can purchase Belgotex LVT from many of our registered dealerships nationwide. To find a dealer, visit the 'Find a Retailer' section on our website, or contact us on 0800 377 753.
